

Chaperones

There are occasions when patients need to be assessed by a clinician which might involve intimate examinations.

If a chaperone can't be provided immediately, you may be asked to return for the examination to be carried out at a mutually convenient time.

We are committed to putting patients at ease and if you wish a chaperone to be present during your examination please do not hesitate to ask a doctor or nurse.

Trust is important in the relationship between our clinicians and patients. Please do not hesitate to ask for a chaperone if you require one.
